

CHS Traffic Flow Changes

Effective January 3, 2017, Champion High School families will notice a significant enhancement to traffic flow during student drop-off and pick-up times.

Private vehicles dropping off and picking up students will use the **east campus entrance** via Herff Ranch Blvd., turning right onto the campus access road (the old bus route) adjacent to Cibolo Creek Elementary School. Students will be dropped off and picked up on the back (east) side of CHS.

- In the mornings, students will be able to be dropped off in the new location until 8:50 a.m. The access road gate will close at 8:50 and tardy students will need to be dropped off in front of the school.
- In the afternoons, drivers can queue along the access road until 4 p.m., when the gate will open and students can be picked up at the school's back doors.
- Students needing to be picked up early due to a medical appointment or other reason will need to be checked out at the front of the school as customary.
- There are no changes in traffic flow for students who drive themselves to school and park in the lots at the front of the school.
- Only BISD school buses will be allowed to use the front loop for student drop-off and pick-up.
